EDUCATION

University Institute of Engineering and Technology, CSJM University Kanpur, Uttar Pradesh
Bachelor of Technology in Information Technology Dec 2020 – May 2024

- CPI till sixth semester : **6.1/10.0**
- Relevant Coursework: Machine Learning, Data Structure and Algorithms, Operating System, Computer Networks, Database and Management, Web Development, Java, Discrete Mathematics and Software Engineering

High School Gorakhpur, Uttar Pradesh
Assumption Public School Aug 2015 – Aug 2019

- CGPA till **10.0/10.0**

WORK EXPERIENCE

Code Alpha 1 May 2023-10 June 2023
Web Development Intern Online

- Developed responsive and user-friendly web pages using HTML, CSS, and JavaScript.
- Collaborated with a team of developers to design and implement website features and functionality.
- Assisted in optimizing website performance by analyzing and refining code.
- Conducted thorough testing and debugging to ensure cross-browser compatibility and seamless user experience.
- Researched and implemented best practices in web development to enhance website performance and security.

Oasis Infobyte 15 May 2023- 15 June 2023
Web Development and Designing Intern Online

- Successfully completed six web development projects of varying difficulty levels (1, 2, and 3) within specified timelines.
- Developed responsive and dynamic web pages using HTML, CSS, and JavaScript to meet project requirements.
- Employed problem-solving skills to overcome technical challenges and optimize website performance.

TECHNICAL SKILLS

- **Programming Languages:** Python, Core Java, JavaScript
- **Web Development:** : HTML, CSS, JavaScript, PHP, SQL, React Js
- **Machine Learning:** : Data Visualisation and Basics

PROJECTS

Personal Portfolio [Link](#) |

- Designed and developed a visually appealing personal portfolio website to showcase my skills and projects.
- Implemented a responsive and user-friendly design using HTML, CSS, and JavaScript to ensure optimal viewing across devices.
- Created a compelling homepage with a clear introduction and engaging call-to-action to capture visitors' attention and Developed a portfolio section to showcase my projects, including detailed descriptions, images, and links to live demos or repositories.
- Integrated a contact form to enable visitors to easily reach out and connect with me for potential opportunities
- Regularly updated the website with new projects, skills, or certifications to reflect professional growth and accomplishments.

Tempersture Converter [Link](#) |

- Developed a temperature converter web application using HTML, CSS, and JavaScript.
- Implemented user-friendly input forms and interactive features for seamless temperature conversion.
- Utilized JavaScript logic to handle temperature conversions accurately and efficiently.
- Created a responsive design to ensure compatibility across different devices and screen sizes.
